John Maxwell Team Experiential Learning Resources

Below you will find a list of book titles and equipment/activity vendors that provide ideas and activities for experiential learning, team builders, ice-breakers, etc. This is by no means an exhaustive list! Also, keep in mind these activities run the spectrum of little to no additional equipment needed to the more elaborate and specialized. Most of the activities and equipment will lend themselves to multiple learning outcomes and story lines so you can often use the same activity to highlight different leadership and organizational development lessons at different times. As Paul says, “GET GOOD FIRST” so I encourage to you only use what you need before making a big investment.
